All-In-One Heat Pump APHP-R290-260

60

Apricus

Reduce energy costs up to 3 times compared to conventional electric and gas water heaters.

Registered Clean Energy product with annual carbon reduction rating of 3 tonnes.

Real time power usage monitoring capability means households can now take control of their power bills.

Integrate and maximise your PV with timer-controlled heat up cycles.

Dual heating technology with incorporated electric element to provide hot water up to 70°c.

Smart touch screen controller makes optimising the system easier than ever.

R290 natural refrigerant with near zero global warming potential compared to synthetic.

Eligible for solar and heat pump hot water heater rebates including STCs, VEECs & ESCs. STC= 15 (Z1), 15 (Z2), 18 (Z3), 18 (Z4), 18 (Z5). Values subject to change annually. Please refer to REC registry on the Clean Energy Regulator website for the most up to date values.

FREE APP

- Operational data monitoring including tank temperature and heat pump total power usage
- + Access to data on the controller and mobile app
- Easy fault finding and troubleshooting using historical data
- Adjust operational mode, set the heat pump on a timer, and monitor the temperature ALL by using the mobile app remotely

Smart touch screen controller
